

Content Creation

1. Data Organization

- Categories of Data
- Datasets are organized into folders

2. Data Formats for SOS

- Types of Datasets
 - Textures
 - Time Series
- Best Data Formats
- ECE Projection
- Layering Data
- File Naming Conventions
- System Interactions with Data
- Tools to Create Datasets

3. Animation Options in playlist.sos http://sos.noaa.gov/support/playlist_edit.html

- Frame Rate
- Animate
- Setting the Tilt
- Animation Options for a Time Series
- Dwelling on Frames
- Stopping the Animation
- Shortening a Dataset
- Rotating and Animating
- Auto Run
- Audio with SOS

4. Picture in a Picture

- PIP Information
- PIP Options

5. Labels and color bars

- Using Color Bars and Labels
- Color Bars
- Labels
- Label Position
- Label Options
- Labels and Titles

6. Adding New Datasets

- Simple steps to add new datasets

7. Real-time Datasets

- Number and frequency of real-time dataset updates is configurable

8. Sharing Datasets

- As sites make new datasets, it is our hope that they will share them with NOAA so that we can distribute them to all of the SOS sites
