Science On a Sphere® Geometry
For a 68” (1.73m) Sphere

Elevation
Typical installations.

Three thin suspension wires (black)

Ceiling mounted projector.
Requires a stable ceiling, such as a concrete slab. Temperature stability is also important.

Can be an obstacle for very tall people.

Floor mounted projector.
The rigid projector structure is isolated from viewers by a “kick,” or protective, wall. Requires a stable floor, such as a concrete slab.

Projector Mounts
For both floor and ceiling mounted systems are movable in pitch, yaw, and height.
